

Summer Projects

Chatterboxes

Please make a chatterbox with your child over the summer to bring into school with them in September every Friday.

You will need a shoebox which you and your child can decorate and then fill with lots of lovely things that are personal to your child (no precious/breakable/expensive items please)

The box come in every Friday for your child to access at any time throughout the day in order to look through the objects and have a chat!

The boxes help to encourage the children with their personal and social skills as well as their communication skills.

We hope that you enjoy making these and starting to chat about the objects over the summer.

Coin purse

We would like to introduce money, counting and adding into our snack café. So we are asking this year if you could provide your child with a named purse and ten one penny coins. The children will then be encouraged to "buy" their fruit snack and drink (obviously they are still encouraged to bring a healthy snack from home). They will count out their pennies in order to "buy" their snacks, we will then fill up their purse so the next day they have 10 pennies and start all over again! This purse will be kept at school for the year.
